

## Pay Your Taxes By Supporting MDS Programs and Make Money Besides!

Arizona is one of just three states that offer a unique way to pay taxes – by giving to the public/charter school of your choice. It's the Legislature's way of funding extracurricular/enrichment programs – which are NOT supported by regular state or tuition funding. It gives taxpayers a direct way to “vote”, and decide where they want their tax dollars to go: into programs at the school of their choice – or into the state's general pot, where you have no choice.

How does it work? Any Arizona taxpayer can give money to their public/charter school, and either subtract the amount from their state income taxes owed, or add the amount to their state income tax refund.

Couples filing jointly can give up to \$400 and single filers can give up to \$200.

How can you make money, too? By itemizing on your federal tax return and taking the amount you gave as a deduction. This will lower your taxable income so you may keep more in your pocket.

Why do it? Can you think of a reason not to? Give to support art, music, athletic activities for the kids. It will be a vote for education – a vote to continue Arizona's School Tax Credit Program.
